**Re: Right-to-Know Law Request**

**Right-to-Know Officer:**

The Pottsville District Mining Office has made several statements that they conducted a thorough investigation into the 600 blasting violations in McAdoo.

These blasting violations occurred during a state mandated sewer installation in McAdoo that started some time in 2002.

The company charged with these violations was Marks Contracting, LTD and were hired by the McAdoo Sewer Authority.

Under the Right-to-Know law that was established on January 1, 2009 I am requesting the following:

1. All letters sent by the PA DEP informing my family that reside at 345 West Blaine Street to inspect our property for damage caused by these 600 blasting violations.
2. All letters sent by the PA DEP explaining my options on how to have my property properly inspected for damage caused by these 600 blasting violations.
3. All letters sent by the PA DEP to the home owners of McAdoo that their property might have been damaged by the 600 blasting violations. This would also include but not limited to the surrounding property owners.
4. All letters sent by the PA DEP explaining how to properly inspect their property for damage and/or contact information that would explain their rights and options to complete these necessary inspection.

Sincerely,

Steven Dreyer
